PROFILE SUMMARY

First-year B.Tech IT student with an interest in software development and hands-on experience working on academic and personal projects. Actively learning programming fundamentals and applying them through real-world problem-solving and project-based learning.

EDUCATION

SRM INSTITUTE OF SCIENCE AND TECHNOLOGY
2025-2029

- B.Tech in Information Technology

VIVEKANANDHA SCHOOL CBSE
2022-2025

- Higher Secondary (Class XI & XII)
- Secondary (Class X)

WORK EXPERIENCE

Future Interns

DEC 2025 - JAN 2026

Full-Stack Web Development Intern

- Completed task-based web development assignments within strict timelines
- Worked with HTML, CSS, JavaScript, React.js and Node.js to build functional web applications
- Implemented DOM manipulation, event handling, and basic backend APIs
- Used Git & GitHub for version control and collaborative workflow
- Improved code quality and structure based on mentor feedback

SKILLS

- Programming Languages: Python, JavaScript, C, C++
- Web Technologies: HTML, CSS, Tailwind CSS
- Backend & Tools: Node.js, Firebase, Git & GitHub
- Libraries / Concepts: Pandas, Context API, Browser APIs (DOM, localStorage)
- Other: Prompt Engineering (AI-assisted tools), Microsoft Excel

PROJECTS

SkillSwap - Skill Exchange Platform | <https://skillswap-learnearn-in.web.app/dashboard>

Tech Stack: React.js, Firebase, Tailwind CSS, Jitsi Meet API, JavaScript

- Engineered a full-stack skill-trading platform with real-time chat, video calling, and AI-powered practice quizzes across 50+ skills
- Built a gamification engine featuring XP, coins, badges, daily streaks, and a live Firestore-powered leaderboard
- Integrated Firebase Auth (Google OAuth), Firestore real-time DB, and push notifications with a fully mobile-responsive UI
- Deployed on Firebase Hosting with protected routing, Context API state management, and Framer Motion animations

MedReminder - Medication Management App | <https://dev-dynamos-med-reminder.vercel.app/>

Tech Stack: HTML, CSS, JavaScript, Node.js, Web Speech API

- Built a voice-guided medication reminder app targeting elderly users with multilingual support for accessibility
- Implemented medicine stock tracking, scheduled reminders, and basic health monitoring in a single interface
- Designed for real-world usability with a focus on simplicity and long-term treatment management
